Let's calculate smth with expression given:

$$y \cdot 3.000 \cdot x$$

BRITISH SCIENTISTS WERE SHOCKED, WHEN THEY COUNT THIS EXPRESSION IN THE POINT (y = 2.000000, x = 1.000000)...

IT'S VALUE = 6.000000 !!!

Calculating the 1 derivation of the expression:

1 step: finding a derivation of function:

$$y \cdot 3.000 \cdot x$$

1 step: finding a derivation of function:

$$3.000 \cdot x$$

1 step: finding a derivation of function:

$$x$$

here it is:

$$1.000$$

2 step: finding a derivation of function:

$$3.000$$

here it is:

$$0.000$$

here it is:

$$3.000$$

4 step: finding a derivation of function:

$$y$$

here it is:

$$1.000$$

here it is:

$$3.000 \cdot x + 3.000 \cdot y$$

Calculating the 2 derivation of the expression:

1 step: finding a derivation of function:

$$3.000 \cdot x + 3.000 \cdot y$$

1 step: finding a derivation of function:

$$3.000 \cdot y$$

1 step: finding a derivation of function:

$$y$$

here it is:

$$1.000$$

2 step: finding a derivation of function:

$$3.000$$

here it is:

$$0.000$$

here it is:

$$3.000$$

4 step: finding a derivation of function:

$$3.000 \cdot x$$

4 step: finding a derivation of function:

$$x$$

here it is:

$$1.000$$

5 step: finding a derivation of function:

$$3.000$$

here it is:

$$0.000$$

here it is:

$$3.000$$

here it is:

$$6.000$$

Calculating the 3 derivation of the expression:
1 step: finding a derivation of function:

$$6.000$$

here it is:

$$0.000$$

Calculating the 4 derivation of the expression:
1 step: finding a derivation of function:

$$0.000$$

here it is:

$$0.000$$

Finally... The 4 derivation of the expression:

$$0.000$$

BRITISH SCIENTISTS WERE SHOCKED, WHEN THEY COUNT THE 4 DERIVATION OF THIS EXPRESSION IN THE POINT (y = 2.000000, x = 1.000000)...

IT'S VALUE = 0.000000 !!!
